

**MAGNUM JOINERY**

Client .....

FURTHER INFORMATION

The following notes contain additional information on your estimate. If you have any questions, please do not hesitate to contact Mark Curtis on **07860875322**

To ease doors.... included no extra charge

**Furniture/Covering Removed**

This estimate has been prepared on the basis that all the furniture and existing floor covering **has** been removed from the area by the customer.

**Prevent Fading**

There is a possibility that floor covering will fade where patio doors or large windows are present. We recommend that curtains or blinds be used to obscure bright sunlight.

**Underfloor**

The fitter's attention should be drawn to any known underfloor piping or wiring to avoid damage.

**Satisfactory subfloor**

This estimate is subject to the subfloor being found to be in a satisfactory condition when the existing flooring is removed, any remedial work required, will be costed separately.

**Re-route Cables**

Prior to the installation of your new flooring, you will need to make arrangements to re-route cable(s) that are currently hidden by the existing flooring.

Any additional work if required from the above can be carried out by us if wished.

I the Client have read and accept the conditions above and agree that any further required work will be charged at a current rate of £20/hour per man. Plus materials.

And agree that payment will be made in full on the day of completion.
